

MILUSIN Private Pre-school

We work with **proprietary curriculums** which take into account children's development needs. It draws on the latest findings in the field of brain mechanisms and development. The curriculums are arranged so as to support harmonious development of each child in all areas.

Our main goals:

- Development of emotional and social abilities (rules of functioning in a group, solving conflicts).
- Assuring each child's sense of safety (close contact between a child and the teacher, adaptation programs).
- Developing independence (possibility to choose lessons, self-reliance).
- Arousing interest in knowledge (experiments with nature, the world around us, naturalistic experiments, access to an extensive library).
- Developing each child's unique talents (working with various artistic material, meetings with artists, concerts and plays, listening to a variety of music).
- Cooperation with parents (parents are encouraged to stay in class the whole time and to participate in the activities).

Our main methods:

- Working in Special Interest Circles.
- Working in Thematic Blocks.
- Using NVC methods (Nonviolent Communication).
- Using Positive Discipline methods.

Types of activities:

- Developing speech and preparing for reading and writing.
- Preparing for mathematics and introducing mathematical terms and ideas.
- Introducing children to the world of art and culture.
- Supporting learning activities.
- Developing small and gross motor skills.
- Developing the senses: touch, sight, smell and taste.
- Developing listening and musical abilities.

Additional information

- Opening hours: 7:30 a.m. - 5:30 p.m.
- Number of groups: 4.
- Total number of children: 75.
- Number of children in a group: 15-20 (maximum of 15 children in the youngest group and 20 children in each of the 3 pre-school groups).
- Our staff:
 - ✓ 2 teachers in each group, also 1 assistant teacher in the younger groups.

- ✓ General director and deputy director.
- ✓ Instructor of adaptation tutorials, English instructor, music instructor, gymnastics instructor.
- ✓ Manager.
- ✓ Cleaner, 2 cooks, gardener.
- 3 meals daily, we consider food allergies in cooperation with the parents.
- Nap time for those children who want or need to sleep.

Our premises

In 2010, we built a new **building designed to suit the needs of pre-school education**, the needs of small children and our methods. We created a one-story building, with no stairs and no barriers for children, we can also accommodate children with disabilities.

Garden, playground: swing, slides, 2 sandpits, cubby for playing with seeds and water, cubby for role playing, balls, baskets, goal, flower and herb beds, small terrace under the oak, etc.

The building has:

- 4 classrooms (with large windows, with direct exit to the garden and its own bathroom),
- a large hall (used for extracurricular activities such as music classes, gym, theater, ball games, meetings with parents, physical play),
- room for individual classes (such as speech therapy),
- spacious hallway (through small round windows parents may watch the activities of their children in the classroom),
- outdoor terrace (along the south wall of the building, a wooden outdoor terrace, the terrace is lit and roofed, which allows children to play on rainy days and after dark),
- kitchen (designed and well equipped for preparing and serving meals by our cooks).

Additional tutorials and services:

- Tuition includes: art, development of musical features, English, basics of operating computers, naturalistic tutorials, sensory stimulation integration tutorials, basic speech therapy and psychological care.
- Tuition does not include: field trips, theatre, concerts, extended speech; therapy and psychological care.
